PROFESSIONAL SUMMARY

Pragmatic Web Developer and Technical Lead with expertise in custom WordPress development, Elementor, and front-end architectures. Skilled at writing custom AI rules (.agent files) and dev scripts that help engineering teams build faster while staying aligned on coding standards, UI precision, and site speed. Experienced in inspecting Figma designs down to the pixel and maintaining sub-3-to-4-second page loads for international clients.

PROFESSIONAL EXPERIENCE

Web Developer — BeUnique INC

Feb 2026 – Present

- **Full Custom WordPress Builds:** Engineer 100% full custom PHP themes, hooks, and modular structures—completely avoiding page builders to ensure sub-3-to-4-second load times and high Core Web Vitals scores.
- **Developer AI Tooling & Rules:** Write, update, and maintain custom `.agent` rulesets and AI prompts to enforce strict coding standards and cut development build cycles by 40%.
- **Figma-to-Code QA:** Perform detailed QA checks against Figma designs to ensure responsive layouts, typography, and micro-interactions match strict Japanese client expectations.
- **SEO & Performance Setup:** Manage schema markup, All-in-One SEO configurations, and caching setups to maximize search crawlability.

Production Manager — CoCreate (formerly CreativesOnline)

Feb 2025 – Jan 2026

- **Cross-Functional Delivery:** Directed development, design, and QA pods across multiple concurrent client accounts, maintaining a 100% on-time project completion rate.
- **Custom Code & Elementor Management:** Built custom shortcodes, PHP/CSS snippets, and customized Elementor builds to meet specific client feature requirements without bloating site architecture.
- **Standardized QA Governance:** Institutionalized comprehensive pre-launch testing checklists and cross-device audits that cut post-handover defect tickets by 35%.
- **Process Optimization:** Created reusable code libraries and automated staging workflows that reduced repetitive project setup overhead across development pods.

Lead Web Developer — CreativesOnline

Jun 2024 – Feb 2025

- **Rapid Career Trajectory:** Promoted from Junior Developer to Department Head within 4 months due to strong architectural problem-solving and consistent delivery.
- **Custom Liquid & WordPress Architecture:** Built custom Shopify Liquid storefronts and bespoke WordPress sites using custom code, shortcodes, and tailored Elementor setups for enterprise clients.
- **Technical Leadership & Code Reviews:** Mentored front-end engineers, ran code reviews, and enforced semantic HTML/SCSS standards across all team deliverables.

Front End Developer Intern — whiteStrings

Feb 2024 – May 2024

- **Figma UI Translation:** Translated Figma design systems into responsive Vue.js and Laravel Blade components.
- **Device QA & Bug Fixing:** Executed cross-browser testing across mobile, tablet, and desktop breakpoints, identifying and patching 50+ UI defects.

Freelance Web Developer — Self-Employed

2023 – 2024

- **End-to-End Client Solutions:** Delivered custom WordPress sites, portfolio platforms, and high-converting landing pages for private clients.
